2 离合词（1） Separable Words (1)

本册中的“上课、下课、上班、下班、说话、读书、睡觉、看病、生病”等是一类特殊的动词结构，可分可合，合在一起时是词，中间加其他成分则变成短语，所以被称为离合词。离合词分离时，可插入的成分有限。

In this volume, words such as "上课", "下课", "上班", "下班", "说话", "读书", "睡觉", "看病", and "生病" belong to a special type of verbal structure. These words can be either combined or separated: When combined, they function as single words; when elements are inserted between their components, they become phrases. Therefore, they are referred to as separable words. When separable words are split, the types of elements that can be inserted are limited.
